

REMARKS

Introduction

The specification has been amended to make the title more descriptive of the claimed invention and to update a cross-reference to a related case. Claims 1-5 are currently pending in the case. No new matter has been added by the amendments to the specification.

Claims 1-5 are in condition for allowance.

Reconsideration and allowance of this application in light of the following remarks is hereby respectfully requested.

The Objections to the Specification

The Examiner stated on page 2, lines 1-4 that the "application is in condition for allowance except for the following formal matters: A. The first paragraph of the specification is required to be amended so that it refers to the parent case, 6,628,140. B. The title is required to be amended so that it is descriptive of the claimed invention." Applicant has amended each of the title and the first paragraph of the specification in order to meet the Examiner's requirements. Thus, for at least the above reasons, applicant's application is allowable.

Conclusion

The foregoing demonstrates that claims 1-5 are allowable. This application is therefore in condition for

Application No. 10/625,093  
Amendment dated July 22, 2005  
Reply to Office Action of July 1, 2005

allowance. Reconsideration and allowance are accordingly respectfully requested.

Respectfully submitted,

---
